THE MINING ASSOCIATION
OF
BRITISH COLUMBIA
"BC'S VOICE OF MINING SINCE 1901"

Welcome to the Mining Association of British Columbia

Mining is one of BC's largest and oldest industries. Vancouver is home to more than 850 mining companies exploring for and developing mining projects both in BC and around the world. Billions of dollars in equity are raised here and, thousands of people are employed either directly or indirectly by this industry. BC is a manufacturing, shipping and export centre providing products to many of the key markets of the Asia Pacific.

The Mining Association of BC (MABC) was established by an act of the British Columbia Legislature in 1901. The MABC represents the needs and interests of coal, metal and industrial mineral mining companies with operating or business interests in BC, supply and professional service organizations and institutions with an interest in the mining industry.

The MABC is at the forefront of mining issues and public policies that directly impact your bottom line. The MABC is the industries' voice regarding environmental regulations, taxation, infrastructure demands, labour issues, health and safety and international trade.

With over a century of achievement, the MABC is your voice with senior decision-makers in government, communities, NGO's, First Nations and the media.

Become a member of our dynamic organization and help make mining an even bigger part of BC's future.

Let the MABC Go To Work For You!

What are the Benefits of Becoming a Member of MABC?

The Mining Association of BC's major activities on behalf of our members:

- Participation in key government/industry committees
- Undertaking joint industry action on issues of common concern
- Providing staff expertise in areas of greatest interest
- Extensive focus on health, safety and disability management issues in the mining industry
- Tracking and advising members on key policy and regulatory change
- Advocating for favorable public policy positions
- Facilitating meetings that allow for exchange of information among members and public officials
- Working with broader societal groups, non governmental organizations and other stakeholders on issues of concern
- Participating in key international forums relating to mining and mineral investment and trade
- Engaging in meaningful dialogue with BC's Aboriginal community around areas of concern and opportunities for greater collaboration
- Public education on the importance of minerals in society and the working of a modern mining industry

Member benefits also include:

- Our Daily News eNewsletter, capturing breaking news stories each weekday to keep you up-to-date on mining related news on a province-wide, national and international level
- Member rates for advertising your jobs on our online "Job Board"
